Frontend Design Document

Introduction
This document is a a comprehensive design guide for the AI-enhanced Skincare E-commerce platform.The design is heavilily influenced bu peremiumm skincare brands that hae a balance of sophisticated asthetics and functionality clarity with particular focus on the websites

Deeponde-A korean skincare e-commerce very luxioroius and soft asthetic when looking at the website I really admired the simplistic look for the landing page so decided to take inspiration from that.

디폰데 - 흰목이버섯 비건 앰플

Medicube - Modern and tech advanced asthetic took a lot of inspiration from this and translated to my product cards and listings.

https://themedicube.com.sg/

This design document contains three core elements:

1 Wireframes – blueprints that outline the page layouts, and component hierarchy , laying out each individual page which is handrawn.

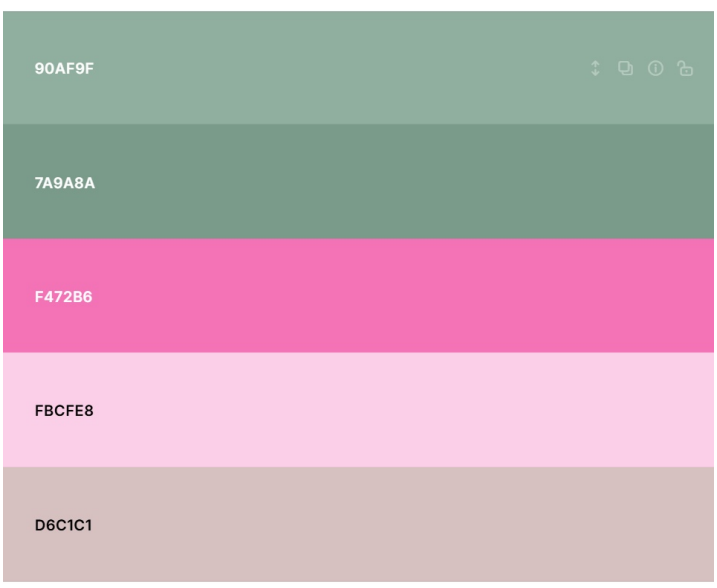

2 Design Tokens – A system for visual properties including colors, typography, spacing, and other reusable values that maintain consistency across all components and pages inspired by the disciplined design systems of premium brands - helpful with Tailwind CSS.

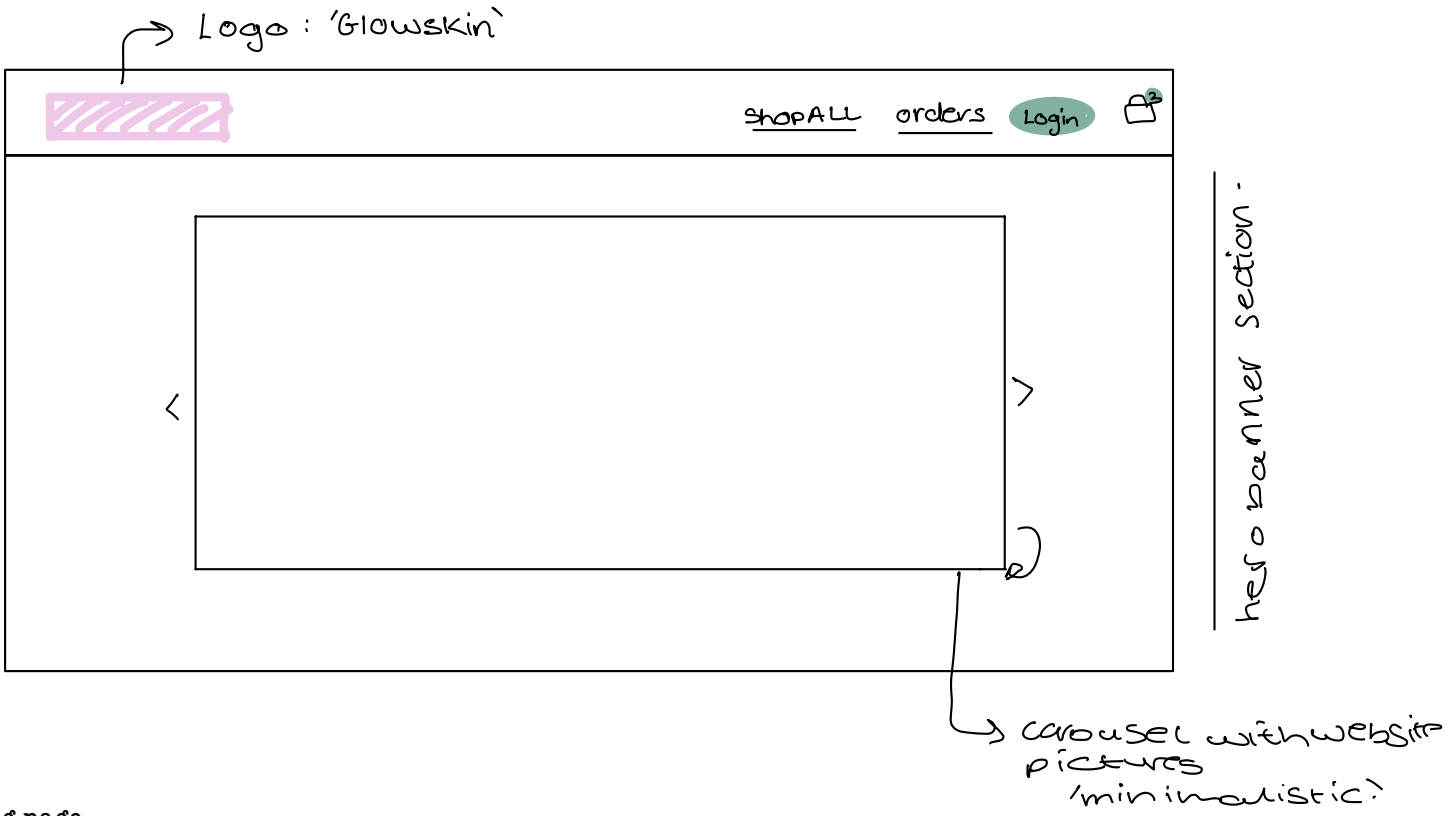

3 Visual Palette – The colours I selected for my website in visual form

```
export const colors = {
  primary: {
    green: '#90af9f',
    greenHover: '#7a9a8a',
    pink: '#f472b6',
    pinkHover: '#fbcfe8'
  },
  neutral: {
    900: '#111827',
    600: '#4b5563',
    500: '#6b7280',
    200: '#e5e7eb',
    100: '#f3f4f6',
    white: '#ffffff'
  },
  semantic: {
    error: '#dc2626',
    success: '#10b981',
    warning: '#f59e0b'
  }
};

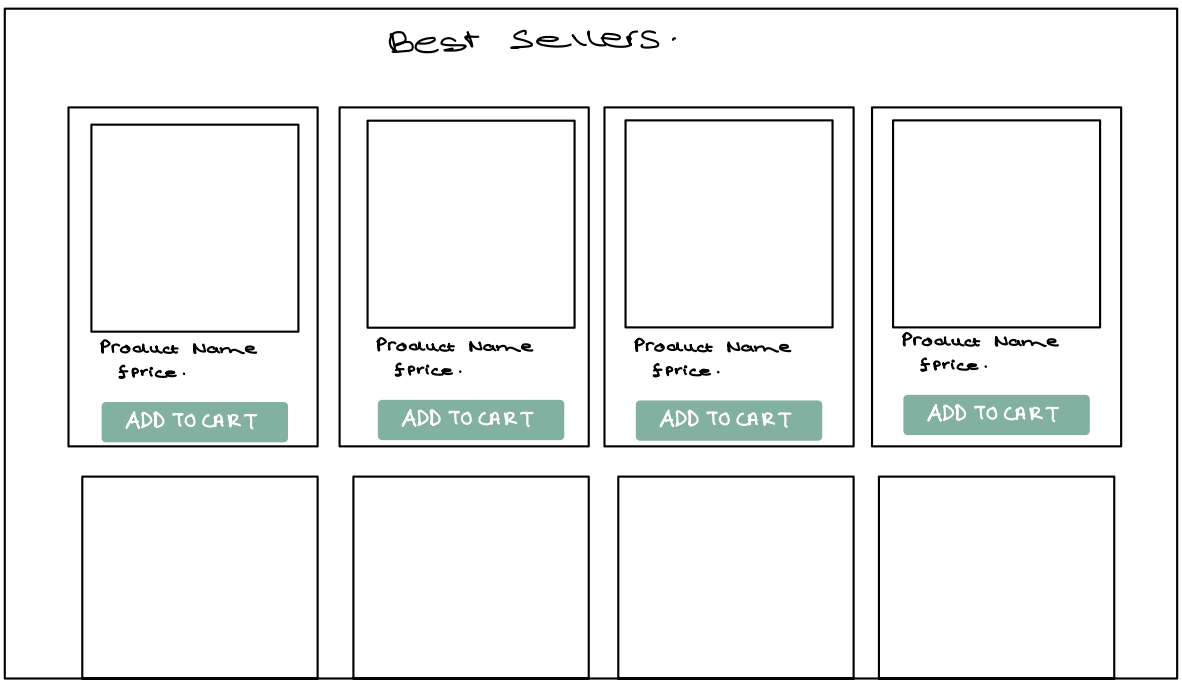

export const spacing = {
  xs: '0.25rem',   // 4px
  sm: '0.5rem',    // 8px
  md: '1rem',      // 16px
  lg: '1.5rem',    // 24px
  xl: '2rem'       // 32px
};

export const typography = {
  fontFamily: 'system-ui, sans-serif',
  sizes: {
    xs: '0.75rem',    // 12px
    sm: '0.875rem',   // 14px
    base: '1rem',     // 16px
    lg: '1.125rem',   // 18px
    xl: '1.25rem',    // 20px
    '2xl': '1.5rem'   // 24px
  }
};
```
